

Teachers no longer have to manage folders of instructional logs and progress monitoring data or spend time searching for aligned instructional activities.

Research repeatedly demonstrates Small Group Instruction that is targeted skill focused, explicit, systematic, and multi-sensory... supports all students, especially those that risk reading failure.

## Support your teachers....

Provide them an evidence based tool that efficiently and effectively collects skill inventory data, groups students by specific skill, and... links to scripted explicit lessons that align with each targeted skill.

## Benefits of the Small Group Automation Tool:

- ✓ **Kids master skills quicker...** because of individually targeted instruction.
- ✓ Comprehensive skill inventories identify specific skills... so **instruction is focused** on the greatest needs.
- ✓ **Online platform eliminates paperwork and facilitates collaboration.** Now, all adults supporting an individual student can track progress, and intervene immediately... reducing the need to find time to touch base.
- ✓ Direct links to **multiple scaffold lessons for each targeted skill...** allows the teacher to match the amount of support according to student progress.
- ✓ **Track progress** with formative assessments... **immediately** know when a student masters a skill and is ready to move to the next skill... **increases student growth.**
- ✓ Remote viewing supports virtual instruction... **reduces the need for printing.**
